Show row weights

With what other organizations in your community did you partner when convening this conversation, if any?

+ Add another organization

4. Tips for completing various sections of the webform:

- For “Title,” use the same title as your community event.
- For “Conversation,” start typing the name of your community event. When the name of your community event comes up in the drop down box, select it with your mouse:

Part of the National Dialogue on Mental Health

- c. For “National Organization Partners,” select your organization from the list (note, the organization will need to first be added to the Partners page, www.creatingcommunitysolutions.org/partners. If you need to add the organization, please send the information to rgoodrich@email.arizona.edu first). To select more than one organization, hold down the “Control” key and click on each organization name. This will tie the outcomes page to the organization’s partner page (more on this later).

- d. Under “With what other organizations in your community did you partner when convening this conversation, if any?” add any other organizations that partnered with you on the event (note, they do not need to be listed on the CCS Partners page. When these organizations are added, they will be listed on the Outcomes page for your event). To add multiple organizations, click the “Add another organization” button.

- e. Enter the number of participants under “Number of Participants”
- f. Under “Format” select the length of your community event.

- g. Answer the questions in the appropriate text boxes.
- h. Under “Public Status” select “Public”
- i. Under Photo, you can upload a photo of the event. Allowable file types include .png, .gif, .jpg, .jpeg
- j. Click “Preview” to review the information before submitting, then click “save”.
